## 1800, 2050, 2200 Offshore Series

The big, beamy Offshore models with their optional center console steering and roomy interior make an ideal craft for fishing on lakes, coastal and open waters. Like all Lifetimer boats, they are built to move fast and safely in the most adverse of weather and water conditions. Our tapered delta-planing hulls with reverse chines and sharp, deep bow entry are one of the driest, safest and most seaworthy boats on the market today.

Make this boating season the best ever.... own the boat of a lifetime.
